

# MUNIN

## FLEXIBLE HIGH-FLUX-PANEL

### WELL DIRECTED LIGHT AT HIGHER MOUNTING HEIGHTS

New lighting concepts for vertical and horizontal surfaces

- Rotatable and swiveling panel for integration into Baldur light lines or 3C rails or adjustable steel wire suspension
- Flexible like a spot, yet much more light per luminaire
- Ideal complement for all light line concepts, for more variety and flexibility in shop design
- Highlighting specific areas as promotion areas in retail or any vertical surfaces

#### Optional Smart Lighting

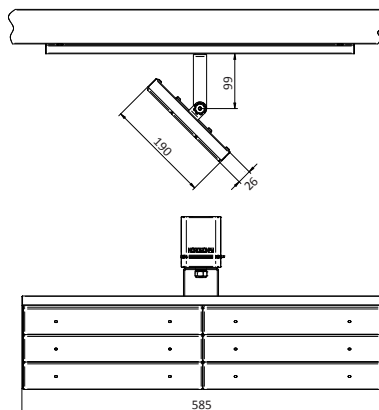

Nordeon offers an easy and intuitive wireless lighting control that can be easily assembled and adapted via a free app. You achieve maximum savings with maximum safety.

### PROGRAM-MATRIX MUNIN

Luminous flux	8.000 up to 16.000 lm
System power	62 up to 124 W
Luminous efficacy	130 bis 140 lm/W (colour temp. 4000 K)
Colour temp. / CRI	4000 K, 3000 K / CRI>80
Optic / Light distribution	medium beam (half peak 60°), continuously rotatable and swiveling
LED system	6 LED boards each with 33 mid power LEDs (special version with 3 LED boards)
LED degradation	50.000 h (L80B10)
Driver	Standard oder DALI
Housing material	Sheet steel, white (RAL9016), silver-grey (RAL9006) or black (RAL9005)
Optic material	PMMA

### APPLICATIONS

- Retail (food, non food, do-it-yourself)
- Logistics, warehouses, industry
- Wall washing
